S Sujeeth Shingade

Professional Experience

Sensesemi Technologies Pvt Ltd

Sept 2024 – Dec 2024

ML Engineer | Internship

Remote

- Trained a **Keyword Spotting** System optimized for ARM-based SoC hardware.
- Engineered **preprocessing** pipelines, including noise augmentation and pitch shifts.
- Fine-tuned MobileNetv2(DS-CNN) achieving 97% accuracy.
- Leveraged PyTorch to optimize CNN model, improving accuracy to 91%.

 ${\bf SpikedAI} \hspace{35pt} {\bf Apr} \ {\bf 2024-Oct} \ {\bf 2024}$

Platform Developer | Internship

Remote

- Configured and customized the **Hivebrite** SaaS platform for **InventX**, enhancing user-experience.
- Developed responsive & Dynamic web-pages using **Next.js**, optimizing performance & scalability.
- Designed and implemented **Branding** and **User-management** system.

Key Projects

Jadoo.ai: AI-Driven Image Tagging and Description | Link

Dec 2024

- Integrated Vertex API to generate context-rich Image Descriptions.
- Built Frontend with Next.js, Animations with Framer Motion, and Supabase.
- Optimized Image retrieval using pgVector embeddings for faster search by 76%.
- Integrated Vision Transformers from Hugging Face with Google Cloud Vision.

BizragBot: RAG Chatbot for Predictive Analysis of Business Data | Link

Oct 2024

- Built a RAG pipeline for LLM-based query answering with Llama 3.2 1B Instruct.
- Integrated LangChain for efficient document chunking & retrieval workflows.
- Implemented **Semantic Search** with **FAISS** for fast document retrieval.
- Optimized inference speed using OpenVINO & AVX-512 ISA for enhanced performance.

Sena.ai: Sentiment and Emotional Analysis | Link

Jul 2024

- Fine-tuned BERT and RoBERTa models for Text classification and Sentiment analysis.
- Implemented Sentiment & Emotional Analysis on Text, PDFs, URLs and Images.
- Developed MPAA Rating System for media file age-appropriateness.
- Deployed models to Flask backend & integrated with Next.js frontend using Flask-CORS.

Publications

1. Mayank Chaturvedi, Sujay J Ram, S Sujeeth Shingade, Samatha R Swamy. From Monolith to Microservices: A Systematic Literature Survey, published at 3rd International Conference on Data, Decision and Systems, 2024.

Technical Skills

- Languages: Python, JavaScript/TypeScript
- Libraries & Frameworks: Flask, Next.js, React, Node.js, Tailwind CSS
- Database: MySQL, MongoDB, Supabase
- Cloud Technologies: Google Cloud, Vercel SDK
- DevOps & Version Control: Git, Docker, GitHub Actions
- Other Tools: Postman, Resend, Figma, SolidWorks, Tableau, LaTeX

Education

RV Institute of Technology and Management

2022 - 2026

B.E. Information Science and Engineering - CGPA: 8.47

Bengaluru, Karnataka

Achievements

1st Prize Winner | AD3X! Hackathon | Alkimi

1st Prize Winner | Seamless AI Hackathon | Formidium

Honorable Mention | Emerging Tech Hackathon | Metadome.ai

2nd Prize Runner-up | Build Your Web | Robofiesta 2024
